

**Bone and Joint Decade
World Conference
September 10-11, 2010
Scandic Star Hotel
Lund, Sweden**

**Beyond the Decade:
*Moving Together***

The Bone and Joint Decade 2010 World Conference will prove how cooperation brings progress in Musculoskeletal Diseases. International participants will together shape the future of the next phase in Bone and Joint Health: Moving Together to Improve Musculoskeletal Health.

The meeting will bring together top international opinion leaders in bone and joint health, the World Health Organization, the National Institute of Health, Ministries, with leading societies, journals, and the Bone and Joint Decade's 70-country strong network. Together they will identify what remain the challenges that prevent optimal musculoskeletal health and that limit advances in musculoskeletal science. An action plan will be launched to tackle these which will be implemented through a sustainable global forum for musculoskeletal health. The international conference will be held in Lund, Sweden, where the Bone and Joint Decade was initiated a decade ago.

Thursday, September 9

Arrival 13.00 Informal dinner (19:00 – 21:00) at Star Hotel
Individual Face-to-Face meetings with NAN – ISC

Friday, September 10

The Strength of Cooperation in Musculoskeletal Disorders – Working Together

Time	
08.30	Welcome Prof Lars Lidgren and Prof Kristina Åkesson, Sweden
08.45	Opening speech Cristina Husmark Pehrsson, Minister Health and Social Affairs, Sweden
	Moderators: Prof David Marsh, UK and Prof Wolfhart Puhl, Germany
09.00	Research: "Curing autoimmune rheumatic diseases: A European supported research network" Associate Prof Anca Catrina, Sweden
09.15	Clinical care: A Musculoskeletal Surveillance and Information network – Dr Till Uhlig, Norway
09.30	Gaining evidence: Cross-country and through disciplines. The Omeract initiative Prof Peter Brooks, Australia

09.45	Epidemiology for the future: How can we use bioinformatics to improve musculoskeletal health? Assistant Prof Martin Englund, Sweden
10.00	Health & Research policy: Alliance Against Arthritis Mr Neil Betteridge, UK
10.15	<i>Coffee & Tea Break</i>
	Moderator: Prof Anthony Woolf, UK
10.45	Strength through co-operation
	Keynote: "Advancing musculoskeletal science and health through collaboration" Prof Stephen Katz, Director National Institute of Arthritis and Musculoskeletal and Skin Diseases, National Institutes of Health, USA
11.15	MOVING FORWARD
	Moderators: Prof Ghassan Maalouf, Lebanon and Prof James Waddell, Canada
	Musculoskeletal sciences: What have been the most significant advances in musculoskeletal basic science in the last decade? What breakthroughs do you see being made in the next decade? Prof Regis O'Keefe, USA
11.40	Musculoskeletal sciences: What have been the most significant advances in musculoskeletal clinical science in the last decade? What breakthroughs do you see being made in the next decade? Prof David L Scott, UK
12.05	Prof Dick Heinegård, Sweden will comment the presentations
12.15	<i>lunch</i>
	Moderators: Dr Deborah Kopansky-Giles, Canda and Prof Liana Euller-Ziegler, France
13.15	Clinical care: What have been the most significant advances and innovations in <u>medical</u> management of musculoskeletal conditions in the last decade? What breakthroughs do you see being made in the next decade? Prof Tore Kvien, Norway
13.35	Prof Sherine E Gabriel, USA will comment the presentation
13.45	Clinical care: What have been the most significant advances and innovations in <u>orthopaedic</u> management of musculoskeletal conditons in the last decade?

	What breakthroughs do you see being made in the next decade? Prof Cody Bünger, Denmark
14.05	Prof René Verdonk, Belgium will comment the presentation
	Moderators: Armin U Kuder, Esq., USA and Mrs Lillian Mwaniki, Kenya
